Experience history as you cross Canada by rail!

The railroad in Canada is an integral and essential foundation for the country. When the last spike was driven in the cross-country rail line on November 7, 1885 at Craigellachie, something truly magnificent had been accomplished: Canada had been united. The railroad was written into the agreement of confederation on that historic day when the Dominion of Canada was formed in 1867. The railroad was a condition of entry into confederation by British Columbia and it was the common thread that linked the vast spaces and diverse cultures of the grand nation that is Canada. Experience Canada's national railway, VIA Rail, on an epic journey from Vancouver on the Pacific coast to Halifax on the Atlantic coast. Along the way, get to know the character of various parts of the nation, yet find that element that makes us all uniquely Canadian. From the towering giants of the Rocky Mountains to the sea of grass in the vast prairies; from the unique mix of cultures in Winnipeg and Montréal to the Scottish influence in the Maritimes; from the awesome view at the CN Tower to the spectacle of Niagara Falls, you will see it all. All aboard for the adventure of a lifetime!
