

Princess Louisa Fjord

Naiad Explorer

B.C. FJORDS

June 14, 2022 – 7 Days

Knight Inlet, Nakwakto Tidal Rapids, Desolation Sound & Princess Louisa Fjord

Some of the most thrilling sights along the B.C. coast cannot be reached by road, and the only access is by boat. This tour includes four boat excursions into these remote places. Knight Inlet is the longest fjord on our coastline, extending 113 km deep into the Coast Mountains. Nakwakto Rapids are the fastest tidal rapids in the world, according to Guinness, and during our visit the waters pouring out of Seymour Inlet and Belize Inlet will attain the incredible speed of 14.3 knots. A third boat trip departs Campbell River, weaves among the Northern Gulf Islands, and cruises through the magical beauty of Desolation Sound to Lund on the Sunshine Coast. A fourth cruise explores amazing Princess Louisa Fjord where sheer cliffs rise a thousand metres out of the water and thundering Chatterbox Falls dominates its upper end.

ITINERARY

Day 1: Tuesday, June 14

For a change from the familiar Coquihalla, we drive down the Fraser Canyon and ride the **Hell's Gate Air Tram** across the boiling rapids of the mighty Fraser River. In New Westminster, we stay at the Inn at the Quay where every room has a view of the Fraser River. You may want to take a stroll along Westminister Quay this evening.

Meals included: Lunch

Accommodation: Inn at the Quay

Day 2: Wednesday, June 15

After riding the ferry to Nanaimo, we drive through Campbell River and stay two nights in **Port McNeill**.

Meals included: Breakfast

Accommodation: Haida Way Motor Inn

Day 3: Thursday, June 16

We board the *Naiad Explorer* for the first of four exciting ocean experiences. Today we head to **Knight Inlet**, British Columbia's longest fjord at 113 km. Captain Vancouver, during his 1792 expedition, was impressed with "the high stupendous mountains rising perpendicularly from the water's edge" and named the fjord for John Knight, a British naval officer. The route goes past Village Island (an old First Nations village), then through Beware Pass to see the pictographs on Turnour Island. After Minstrel Island and Clio Channel, we pause at Cutler Cove estuary for possible sightings of **grizzly bears**. The *Naiad's* powerful engines make short work of the journey up Knight Inlet to **Cascade Falls** which plunges directly into the ocean. During the return ride to Port McNeill, we stop at the Glendale River estuary for another chance to see grizzly bears, then we weave through the Broughton Archipelago to Fife looking for Steller sea lions.

Meals included: Breakfast, Lunch, Dinner

Accommodation: Haida Way Motor Inn

Day 4: Friday, June 17

Back on the *Naiad Explorer*, we cruise north across Queen Charlotte Strait and Labouchere Passage to the mainland. Today's timing is important so we can experience the thrilling tidal rush through the **Nakwakto Rapids**. Here the waters of Seymour Inlet (58 km long) and Belize Inlet

(40 km long) surge through the 300-metre wide gap. With the benefit of the *Naiad's* big engines, we cruise right into the tidal flow and have a sensational vantage point as the usually calm ocean comes to life like a giant rushing river. The spectacle happens twice a day, but a combination of factors makes June 17 one of the best days in 2022 to experience the Nakwakto Rapids as the tide is ebbing (flowing out of the fjords) and predicted to reach the awesome speed of 14.3 knots at 9:34 am. These are the fastest tidal rapids in the world, according to Guinness. The rapids were discovered by explorers under the command of Captain Pender in 1865 and named for the local First Nations band. After returning to Port McNeill, we drive south to Campbell River and stay overnight at **Painter's Lodge** on the shore of Discovery Passage.

Meals included: Breakfast, Lunch, Dinner

Accommodation: Painter's Lodge

Day 5: Saturday, June 18

Our next boat excursion leaves from Campbell River and weaves among the Northern Gulf Islands such as Quadra, Cortes, Read, and Redonda. These waterways are great for **whale watching** and we keep an eye open for humpbacks, orcas, and dolphins. **Desolation Sound** is British Columbia's largest marine park, established in 1973. It attracts recreational boaters from around the world because of its magnificent scenery, pleasant summer climate, unusually warm waters, numerous sheltered harbours, and the snowcapped peaks of the Coast Mountains which rise over 2,400 metres from the water. Captain George Vancouver saw it differently two centuries ago when he described these waters as "forlorn" and "desolate". Our six-hour cruise visits sights such as Squirrel Cove, Roscoe Bay, and Copeland Islands. Our coach meets the boats in Lund and we drive into **Powell River**. Stroll the hotel's waterfront this evening and enjoy the appealing views.

Meals included: Breakfast, Lunch, Dinner

Accommodation: Beach Gardens Resort

Day 6: Sunday, June 19

We ride a ferry across Jervis Inlet to Earls Cove. This is another day of dramatic sights as we explore one of British Columbia's best-known fjords. We cruise for two hours up **Jervis Inlet** past soaring peaks and waterfalls that cascade directly into the ocean. Malibu Narrows is the location of historic **Malibu Lodge**, an impressive log structure that was an exclusive retreat for Hollywood celebrities in the 1940s and is now a popular church camp. The narrows mark the entrance to **Princess Louisa Fjord** and, from here on, the sheer cliffs rise a thousand metres out of the water. The vessels dock at the upper end of the fjord and we

have time ashore to admire the thundering cascade of **Chatterbox Falls**. A picnic lunch is served at the falls. Back on our coach, we drive south along the **Sunshine Coast** to Sechelt.

Meals included: Breakfast, Lunch

Accommodation: Driftwood Inn, Sechelt

Day 7: Monday, June 20

We board a mid-morning ferry at Langdale for the 40-minute crossing of Howe Sound to Horse-shoe Bay, then we travel home.

Meals included: Breakfast, Lunch

OUR CRUISE VESSELS

Knight Inlet & Nakwakto Rapids — *MV Naiad Explorer* is 17 metres long and is powered by twin Volvo-Penta D12 engines with 615 horsepower each. The lower deck has ample enclosed seating with washroom and there is an outdoor rear deck and an upper deck for excellent viewing. *Naiad Explorer* was built in 1999 and quiet engines were installed to minimize underwater noise for whales. With a cruising speed of 30 knots, *Naiad Explorer* is a very fast vessel and is able to travel great distances in a day, including the full length of Knight Inlet. Another benefit of her powerful engines is that she can hold a position in Nakwakto tidal rapids, allowing a thrilling view of this amazing coastal phenomenon.

Northern Gulf Islands & Desolation Sound — Two covered boats carrying 12 people each are used for this one-way cruise from Campbell River to Lund. Both are equipped with a washroom. The small size, maneuverability, and minimal draft allow the boats to get close to the shoreline and view the marine life.

Princess Louisa Fjord — Two vessels with indoor seating are used for the voyage up Jervis Inlet, through the narrows of Malibu Rapids, and into Princess Louisa Fjord. There is no washroom on either boat. Travelling time is two hours each way.

All vessels are operated by long-time captains with lots of experience on the B.C. coast.

Wells Gray Tours has previously offered other small ship excursions that have circled Quadra and Cortes Islands, explored fjords and narrow channels as far north as Kelsey Bay, and cruised in the Gulf Islands and San Juan Islands. This will be our 16th cruise to spectacular Princess Louisa Fjord, our 14th trip along the full length of Knight Inlet, and our 12th cruise to experience the wild rush of the Nakwakto tidal rapids. Of the seven days on this tour, four days are devoted to cruising sheltered waters near Vancouver Island.

Come and join this unique tour, cruising some fabulous scenic waterways.

TOUR NOTES

 **Activity Level 2:** Moderate activity including short distances to walk, such as on docks to and from the vessels and the short trail to Chatterbox Falls. Ramps onto docks can be steep at low tide. There are some stairs, mainly getting in and out of the vessels. The coach and boats cannot carry a scooter or motorized wheelchair. If you are not able to participate in Activity Level 2, Wells Gray Tours recommends that you bring a companion to assist you. The tour director and driver have many responsibilities, so please do not expect them, or your fellow travellers, to provide ongoing assistance. If you are not capable of keeping up with the group or require frequent assistance, the tour director may stop you from participating in some activities or some days of the tour.

Food allergies: This tour visits some remote places where restaurants may not be able to prepare special meals to satisfy every food allergy. The definition of a food allergy is one that can cause severe illness or death. If this concerns you, we suggest you consider booking a different tour where restaurants can meet your food allergy requirements. You must notify us no later than at final payment if you have a food allergy.
